

Quarzite Mine – Art in a Mine Krähstelstr. 55107 Buchs ZH

Between 1894 and 1922, quartz was mined here for the well-known Bülach green glass factory as well as foundries in Winterthur. The mining activities have left a fascinating labyrinth, with 400m long passages and side passages of up to 350m. During their free time the workers carved many sculptures into the walls resulting in a fascinating art exhibition.

We will be given a 45 minute guided tour through this fascinating mine. Cost Fr. 8.--/person.

Afterwards we can sit together in the Restaurant Bergwerk.

Further information: Sheila Sandmeier,
Tel.: 056 222 65 29, e-mail: rsandmeier@bluewin.ch

Directions: From Dielsdorf, ZH drive towards Regensdorf. After the forest, take the first turning to the right, into Krähstelstrasse, direction Buchs.
