SPRING WALK

A lovely walk through the spring trees with the added interest of learning about the planets and their distance from the sun. The walk starts at the parking place near Regensberg, takes the route along part of the last outcrop of the Jura mountains. We will walk to the Hochwacht Restaurant – cannot stop for your drink yet –from the lookout platform here there is a lovely view to the Alps if we strike a clear day. Then a short

downhill, fairly stony, so wear good shoes, and on to Ehrendingen where we can go into the Restaurant Engel for a well

deserved drink (or more).

The planets are shown along the way and are well documented depicting the sun at the start and giving their proportionate size to the sun along the way on this 2-1/2 hour walk.

We meet at the Restaurant Engel in Ehrendingen at 13.45h. Some of the cars will drive to Regensberg transporting the walkers. Afterwards the remaining cars will drive to Regensberg bringing everyone back to their own vehicles.
